What is the process and how long will it take?

We first require that you create an **owner account**, which is a simple online form requiring only basic information.

We will then send you an email to confirm your account.

Payment is the next stage, if you have a paypal account already this stage is simple, secure and normally takes no more than 5 minutes.

Once payment has been accepted you will be given access to our owners area where you can quickly enter the details of your property and upload pictures.

Finally the last step is to check your listing for look and errors. We run a professional eye over all new listing to ensure maximum success for our advertisers.

If you have your paypal account in place, and your property information to hand, the whole process can be done within 20 minutes.

You're only **FIVE STEPS** away from publishing your property for sale online

1. sign up
2. confirm your account
3. payment
4. upload
5. check listing

What are the payment options?

Our preferred method of payment is **PayPal**, which allows for immediate activation.

Paypal is a globally recognised secure and safe method of online payment processing and includes acceptance of all major credit cards

By Telephone

If you prefer to talk to someone, you can pay using your credit or debit card by talking to one of our operators on the telephone. This option is available only during normal office hours 9am to 6pm GMT.

Bank Transfer

Payment is also available by transfer of funds in to our Bank Account, although this method may result in a delay of up to 3 working days before your property will appear online.

Cheque

Finally we are happy to accept a personal check from you. Again there may be a delay whilst payment is processed, and all both cheque and bank transfer should be referenced with your login name.
